

# Simplify contract management

Create, manage, e-Sign and collaborate on contracts easily, while ensuring efficiency, consistency and security in every detail. All without the need for a dedicated contract manager.

## Boost productivity

Forget tedious manual tasks. Automate contract drafting, editing, e-Signing and collaboration with one tool. Customize them in minutes, with templates containing pre-approved content containing zero mistakes.

## Minimize expensive errors

Standardize contract terms for accuracy. Customize and lock content based on country, industry and CRM data. Improve security with legally binding e-Signatures.

## Collaborate in real time

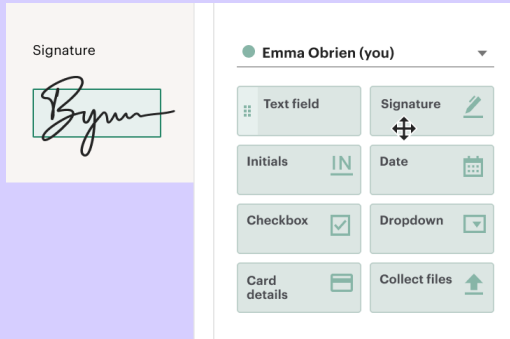

Foster transparency and engagement, by enabling all parties to actively participate during contract creation and negotiations. Eliminate email chains and gather key details quickly.

# Save time and relieve contract headaches

## Generate them easily

No need to waste time creating contracts manually. PandaDoc simplifies the process through the use of customizable templates and embeds all e-Signatures in a single tool.

## Stay on top of the process

Losing sight of where each contract stands can be frustrating. By using PandaDoc, you'll receive automated email notifications the moment your document is opened and completed, letting you know when it's time to follow up.

## Benefits

Utilize a single repository for all contracts

Implement flexible workflows and signing orders

Reduce unwanted errors via content locking and distinct groupings

Automate contract creation through templates and smart content

Work with a single online interface for customers and associates

Track upcoming renewal dates with email notifications

# Find out why our customers count on PandaDoc

"Our data, pricing tables, technical documentation, and regularly-used content was spread out in different repositories, making it difficult to respond in a timely manner. PandaDoc is far more streamlined, organized and intuitive than Google Drive. It is easy to find documents, snippets and pricing tables."

## **Romy Ribitzky**

Digital Marketing Director,  
Velocity Technology Solutions

"PandaDoc has not only cut the time we spend creating and sending quotes, but it has also become a repository of signed documents that we reference."

## **Matt Fehrmann**

VP of Business Development, Zgraph

"I've been using contract negotiation in PandaDoc for a month now, and it's made me realize how much time I wasted with inflexible 'envelopes' all these years. It's helped me avoid a substantial amount of email and reduced the friction to sign deals."

## **Dan Guido**

Co-founder and CEO, Trail of Bits
